

# Michael Taylor Award (Prior to 2000 Called the Association Award)

Members who have produced a paper for the Association publication describing significant advances in water engineering or science are eligible for The Association Award which consists of a generous cash prize and an award.

This award was last presented in 2002.

## Past Recipients of this Award:

| Year        | Recipient   | Paper   |
|-------------|---|---|
| <b>1991</b> | David Voss and Tony McCartney of Fraser Thomas Partners, Auckland and Bruce Henderson Consultants Tauranga respectively | Special considerations for the calibration of lager sized, computer based, water reticulation network models. |
| <b>1992</b> | Chris Nokes of the Institute of Environmental Health and Forensic Sciences, Christchurch                                | Organic contaminants in New Zealand Water supplies.   |
| <b>1993</b> | Jan Gregor of IEHFS, Christchurch   | The importance of the order of addition of chemicals during aluminium coagulation/flocculation.               |
| <b>1994</b> | T Brown, G Ionas, K Farrant, J Clarke and P Kellyu of Massey University   | Giardia and Giardiasis in New Zealand Molecular techniques applied to species differentiation.                |
| <b>1995</b> | No Entries received.  |   |
| <b>1996</b> | The Ministry of Health, Public Health Group and the National Drinking-Water Standards                                   | Drinking water standards for New Zealand 1995.  |

|             |  |   |
|-------------|--|---|
|             | Review Expert Working Group  |   |
| <b>1997</b> | M Adams, K Powell from University of Canterbury and J Gregor of ESR. | Synthetic and Natural Polymers: Interactions with aluminium.  |
| <b>1998</b> | No Award   |   |
| <b>1999</b> | Greg Simmons, Gillian Lewis, Virginia Hope, J Whitmore and W Gao     | Microbiological quality of drinking water derived from roof catchments: Could there be a health cost from contamination?  |
| <b>2000</b> | John Hatfield and Dedric Smith of Environment Waikato                | Pesticide Contamination of Groundwater Supplies in the Waikato Region.  |
| <b>2001</b> | No Award   |   |
| <b>2002</b> | Fred Baucke  | For his significant contribution to the needs of small water supplies through his promotion of adequate training and performance standard for the small water supplier. |
