

Water NZ modelling special interest group – Auckland Regional Meeting

“Purple Rain”

(A drugged haze, wanderlust, or a drink)

For those who:

- Are unclear about the different types of rainfall available for modelling applications;
- Have a desire to expand their knowledge;
- Would just like to have a social drink with like-minded colleagues.

Presentations by:

- Bodo Hellberg – Auckland Regional Council
“Update of the Auckland rainfall-runoff modelling guideline from TP108 to GD002”
- Nick Brown – North Shore City Council
“Extreme Rainfall events – too small and too few”
- Paul Cowperthwaite – Auckland University of Technology
“Point Process Rainfall Models: Applications in Urban Hydrology”

Time: 5:30pm – 7pm

Date: Wednesday 28th July 2010

Venue: Beca, 132 Vincent Street, Auckland City, Auckland

Drinks and nibbles provided – Courtesy of Beca

Limited parking available

For planning purposes please **RSVP by the 26th** of July to Hannah Dawson (hannah.dawson@waternz.org.nz) or Rathika Jebamony (rag@dhigroup.com)
