

Civil (Water) Discipline Leader

Quote Ref: JAHE691002354

Recognised as leaders in infrastructure development and management, MWH is a strong employee owned and client-focused consultancy which has an international reputation as specialists and leaders in their fields. Their primary expertise is in the support, advice and development and infrastructure assets - particularly in water, wastewater, storm water, transportation and energy. In addition MWH specialise in planning, natural resource management, sustainable development, health and safety, programmed management and design and build.

AP DESIGN (Asia Pacific Design Centre) has recently been launched and is a new initiative across the MWH Asia Pacific region which aims to enhance their design capability and promote technical excellence. Through AP DESIGN a higher standard of delivery will be established, promoting greater opportunities for the technical people within MWH and developing industry leading technical solutions.

Currently they are looking for a Civil/Water/Environmental Specialist to join their AP DESIGN team as a Discipline Leader. Working closely with the teams in NZ, Australia and Singapore you will be responsible for developing and implementing best practice tools and processes in design delivery specifically for water & wastewater treatment, hydraulics, pipelines and networks design projects. You will also play an important role in developing design discipline networks and speciality links throughout these countries.
