

**REAL PEOPLE KEEPING
THINGS WORKING**

City Care provides, construction, maintenance and management services across New Zealand's infrastructure and amenity assets. We work around the clock developing and taking care of our nation's parks, gardens, sportsfields and cemeteries, waterways and coastal areas, roads, buildings and water and wastewater networks.

MANAGER - WATER AND WASTEWATER RETICULATION

We need an experienced Water and Wastewater Reticulation Manager to lead our Christchurch Water & Wastewater reticulation team in Christchurch and the Banks Peninsula. This position involves the management and profitability of the clients water & wastewater contract, project management and assisting in tendering for new work.

You must have either a degree in civil engineering, NZCE (civil), or NZ Diploma in Engineering. Ideally you will have a minimum of five years experience and have excellent technical knowledge of drainage and water engineering issues associated with reticulation. Ideally you will have project and contract management skills along with excellent interpersonal and communication skills.

City Care is an expanding and innovative company, providing excellent training and development opportunities. An attractive remuneration package will be offered to match the skills and knowledge you bring to our company. This is a wonderful opportunity to take the next step in your career within a progressive and exciting company.

Apply online at www.citycare.co.nz Applications close at 5pm on Friday 9 July 2010. Contact Bjorn Triplow on 03-941-5757 with any queries. All applications will be dealt with in the strictest confidence.

All successful applicants will need to pass a pre-employment medical, drug screening test and occupational health and safety orientation test.
