

# New Zealand Land Treatment Collective

Dedicated to improving and communicating technology for the land treatment of waste products

New Zealand Land  
Treatment Collective

## Annual Conference 2016 16<sup>th</sup> - 18<sup>th</sup> March, Gisborne.

### Community Engagement and Land Treatment

How sustainable solutions can be implemented for Land based Waste Treatment, through Community consultation and engagement with key stakeholders, policy makers and advisors.

#### Diary Dates

Abstracts close	16 November 2015
Online registration opens	25 November 2015
Early bird registration closes	5 February 2016
Final papers and manuscripts	5 February 2016

### Background information

The New Zealand Land treatment Collective ('the Collective') was established in 1989 to support research on treatment of waste products by land application. We provide members with the most recent information on land treatment technology, research and information, and improve communication to all stakeholders in the industry. The Collective is managed through and based at Scion, where land treatment of waste products has been researched since 1978. Many other New Zealand organisations are also involved in land treatment research, most of whom are members of the Collective.

#### Student Scholarships

Two student scholarships of \$500 each, plus full registration, are available.

Please contact Marie Dennis for criteria and further information.
