

Stormwater Professional of the Year

This award is to recognise an individual within the industry that has had a significant contribution to stormwater management and development within the wider spectrum of engineering, research or industry.

Individuals can nominate a stormwater professional or themselves for this award. Please note the nominee must be a Water New Zealand member.

The key attributes of a nomination that will be reviewed are as follows:

- Industry leadership
- Demonstrate the ability to develop, articulate and implement changes in the stormwater industry
- Contribution to the industry and wider community/industry partners
- Peer and wider recognition in relevant communities
- Demonstration of high standards of ethical and personal behaviour

A maximum of 300 word synopsis of the nominee is to be forwarded to Vicki McEnaney at Water New Zealand, **by 4pm on Friday 27th April 2018**, details below. The winner will be announced at the Stormwater conference dinner on Thursday 24th May in Queenstown.
