WE CAN

Water Efficiency & Conservation Network

WATER NEW ZEALAND

Aim

- Provide a forum for likeminded practitioners and professionals involved in water efficiency and conservation programmes.

WE CAN

Water Efficiency & Conservation Network

WATER NEW ZEALAND

Our goals are to :

- Create a support network and sounding board
- Improve the planning, implementation and evaluation of programmes.
- Increase knowledge by sharing practical experience in behaviour change and communication strategies
- Understand and encourage the use of technology in reducing water consumption.

WE CAN

Water Efficiency & Conservation Network

WATER NEW ZEALAND

Who is in the room?

Please very briefly introduce **yourself** and the **latest water demand project** you were involved with.

WE CAN

Water Efficiency & Conservation Network

WATER NEW ZEALAND

Membership

- We are seeking practitioners involved in policy, delivery, communication, research and management of water efficiency and conservation programmes.
- This is not a group for technical operators.
- All members must be current financial members of Water New Zealand.
