

**Holly Foreman**

Holly Foreman is the Safeswim Programme Manager at Auckland Council with a wealth of experience in delivering environmental outcomes in the water industry in NZ and the UK. The last few years has seen Holly project manage high pressure, high profile Auckland Council programmes including Safeswim and flood management initiatives.

Prior to this, Holly worked for the Environment Agency in England for over 10 years specialising in Flood and Coastal Risk Management. Partnering with central government and communities to protect homes and business from flooding throughout the south east of England, she also carried out major flood incident operational response and communication roles.

Holly reinforced her passion for the environment and the power of community involvement through a sabbatical in 2015 carrying out environmental research on a trip between Mexico and Patagonia before her journey brought here to Aotearoa.
