
Isle/WSAA 1 GLD Water Efficiency TAG - Draft Agenda

WSAA Offices, 420 George Street, Sydney

9:00am to 3:30pm

Let's save Australia 1 gigalitre per day!

This is the challenge statement for the Isle/WSAA Water Efficiency TAG 2018. The purpose is to bring together Australia's leading water utilities with a view to evaluating and implementing step-change technologies and innovations that can collectively help achieve our aspirational target of saving the industry 1GLD.

This TAG workshop is being delivered by Isle in collaboration with WSAA and the Smart Approved Watermark.

WORKSHOP AGENDA

- | | | | |
|-------|---|-------|---|
| 9:00 | Registration, tea and coffee | 13:20 | Invenio - Stop.Watch
<i>Highly sensitive temperature sensors for flow monitoring and leak detection.</i> |
| 9:30 | Welcome and introduction | | |
| 9:50 | Grendel Games - The Neighbourhood Water Battle
<i>Gamification technology to leverage smart meter data, engage customers, reduce water use and, of course, have fun.</i> | | Detection Services - Aquapea
<i>Pea-sized device that is used in service lines to find and plug small leaks without excavation.</i> |
| 10:40 | Morning tea | 14:00 | Afternoon tea |
| 11:00 | Saint-Gobain - Filtralite
<i>Highly porous clay ceramic filter media to replace sand in filtration to reduce water lost through filter backwashing and reduce energy usage.</i> | 14:20 | Couta group - Waterblade
<i>Fitting for taps that reduces flowrate whilst delivering a high pressure blade of water.</i> |
| 12:00 | Lunch | 15:10 | Summary and closing remarks |

Interested in coming along?

Please RSVP by 2nd November to Monica Bennett, Head of Water
