

Onsite wastewater workshop

DATE:

Thursday, 5th May 2016

LOCATION:

Christchurch City Council
53 Hereford Street
Christchurch

solutions for your environment

ESR INVITES YOU TO A COLLABORATIVE WORKSHOP ON ON-SITE WASTEWATER MANAGEMENT

PURPOSE:

To bring together the experience and knowledge of practitioners, regulators and scientists to learn from one another and to consider ways to improve processes and practice for regulating, designing, consenting and servicing onsite waste management systems in Canterbury.

METHOD:

- A one day participatory workshop designed and facilitated by the ESR social systems team.
- Participants in the workshop to include experienced practitioners (both engineering consultants and installers/service practitioners), Environment Canterbury staff, Community and Public Health, Ministry of Health public health personnel, and ESR microbiologists and groundwater scientists.

LIKELY OUTCOMES:

- Improved understanding, by all key stakeholders, of:
 - The real and relative health risks that onsite waste management systems present within the Canterbury Region
 - Identification of areas of improvement in the process of providing sustainable and effective OSWMS

Workshop spaces are limited.

Email: Elaine.moriarty@esr.cri.nz if you wish to attend.

Morning tea provided, lunch options available to purchase.

Date and time: 5th May 2016. 9am –3pm

Registration: from 8.30 am (*No registration fee*)

Location: Christchurch City Council,
53 Hereford Street, Christchurch

Sponsored by Christchurch City Council, Pattie Delamore Partners, ESR and Ministry of Health
